

## **'Natural Radioactivity Measurements in Fine Aerosols'**

Jeffrey S. Gaffney, Nancy A. Marley (University of Arkansas at Little Rock)  
Amanda C. MacMillan, Karen L. Steelman (University of Central Arkansas) and Niel C. Sturchio,(University of Illinois.Chicago)

Update of results for natural radioactivity on aerosols measured in Mexico City in 2003 and 2006 will be given and results compared. Included are  $^7\text{Be}$ ,  $^{210}\text{Pb}$ ,  $^{40}\text{K}$ ,  $^{13}\text{C}$ , and preliminary  $^{14}\text{C}$  measurements.

This work was performed as part of the Department of Energy's Megacity Aerosol Experiment - Mexico City under the support of the Atmospheric Science Program. This research was supported by the Office of Science (BER), U. S. Department of Energy, Grant No. DE-FG02-07ER64329.
